

COMMERCIALIZING SMALLHOLDER AGRICULTURE IN ETHIOPIA: Lessons for The Gambia.

Presentation to Commercial Farmers
Agribusiness Network (CFAN)

By:
Katim S. Touray

Venue:

Date: July 13, 2019

OUTLINE

- Background
- Development Policies & Plans
- Agricultural Development in Ethiopia
- Commercializing Agriculture in Ethiopia
- Lessons for The Gambia
- Recommendations

ETHIOPIA IN FIGURES

- Physical
 - 1 million km. sq.
 - Diverse elevations and slopes; elevation ranges from -126 m to 4,000 m ASL
 - 18 agro-ecological zones (AEZs) based on temperature and moisture regimes
 - 49 sub-zones based on 7 physiographic regions of the country

ETHIOPIA IN FIGURES

- Social and Economic
 - 100 million people
 - GDP: \$81 billion in 2016/2017
 - GDP/capita: \$810
 - Poverty: 23.5% in 2016

ETHIOPIA GOVERNMENT

- A federal system of government:
 - A Federal government
 - Ethnically-based Regional States
 - Two Chartered Cities (Addis Ababa & Dire Dawa)
 - Zones
 - *Woredas* (Districts)
 - *Kebeles* ("neighbourhoods")

AGRICULTURE IN ETHIOPIA & THE GAMBIA

	ETHIOPIA	GAMBIA
Contribution to GDP (%)	36.3	20.4
% of work force employed	73	46.4 (81 for rural areas)
Arable Land (Ha)	15.1 million	588,000
Irrigated Land (Ha)	Over 2 milion	3,528
Main Crops	Teff, coffee,	Groundnut

ETHIOPIA DEVELOPMENT POLICIES & PLANS

- Medium-term Development Plans:
 - Plan for Accelerated and Sustained Development to End Poverty (PASDEP) (2005-2010)
 - Growth and Transformation Plan (GTP I)
– 2010-2015
 - GTP II - the national development plan being implemented

ETHIOPIA DEVELOPMENT POLICIES & PLANS

- GTP II (2016-2020) – aimed at:
 - maintaining the strong growth (avg. 11%) of the past
 - deepening economic transformation
 - transforming Ethiopia into a lower middle income and carbon neutral country by 2025
- GTP called for establishing 17 IAIPs, and their satellite (RTCs)

AGRICULTURAL DEVELOPMENT IN ETHIOPIA

- Agricultural Growth Programs (AGP)
- AGP I (2011-2015 with \$350m funding
- AGP II (2016-2019); with \$350m funding
 - Increase agricultural productivity and commercialization of smallholder farmers
 - 7 Regional States, and one Charter City
 - 4 Components, including small-scale irrigation and value chains development

FARMER PRODUCTION CLUSTERS (FPC)

- Agricultural Transformation Agency (ATA) established in 2010
- 95% (13 million) of Ethiopia's farmers are smallholder
- Clustering concept based on successes in Asia and Latin America

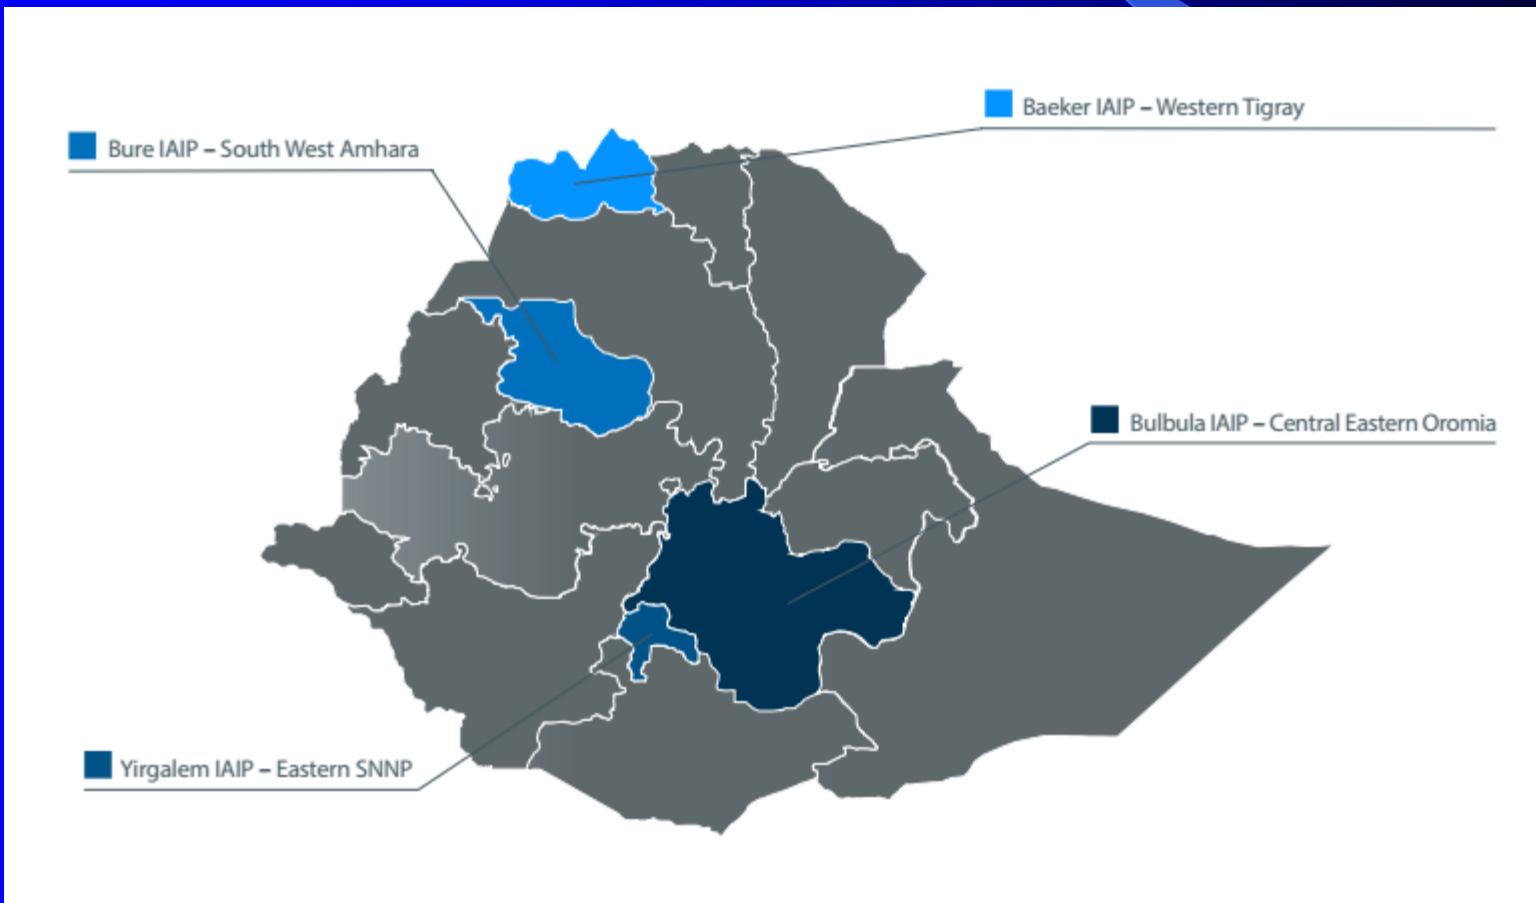

Entrance to ATA Office in Addis Ababa

FARMER PRODUCTION CLUSTERS (FPCs)

- Goals
 1. Increase incomes of smallholder farmers
 2. Improved market access (domestic & int'l)
 3. Increased agro-processing and value addition
 4. Create off-farm employment opportunities
- Reached ~566K farmers in 2018, with anticipated increase in yield and marketable surplus

INTEGRATED AGRO-INDUSTRIAL PARKS (IAIPs)

INTEGRATED AGRO-INDUSTRIAL PARKS (IAIPs)

- Bure, Amhara Region
 - Crops: sorghum & sesame, fruits and veggies., dairy, meat and other animal products
 - Growing area: 398,095 Ha
 - IAIP Area: 154.99 Ha
- Yirgalem, Eastern SNNP
 - Crops: Cereals, coffee, fruits and veg., dairy, meat, and other animal products
 - Growing area: 163,461 Ha
 - IAIP Area: 108.80 Ha

Bure IAIP, Bure, Amhara Region

Yirgalem IAIP, Yirgalem, SNNP Region

COOPERATIVES

- GTP II
 - Number of basic coops to increase from 59,401 in 2014/15 to 64,401 in 2019/20
 - Number of cooperatives union increase from 314 to 324 by 2019/20
 - Participation of women and youths in cooperatives will reach 50% and 30%

**Meki Batu Fruit & Veg. Cooperative, Meki,
Oromia Region**

Truck load of fertilizers, Bure, Amhara Region

LESSONS FOR THE GAMBIA

- Smallholder Irrigation
- Cooperatives
- Research & Extension
- Agricultural Commercial Clusters
- Resource Mobilization
- Planning & Implementation

LESSONS FOR THE GAMBIA

- *Outcome 3.2: Value chains enhanced for Agriculture and Livestock Transformation*
 - Identify priority value chains (crops & livestock)
 - Strengthen capacity of VC actors
 - Promote agri-business & agro-processing
 - Promote agricultural marketing systems, including cooperatives and commodities exchange
 - Adopt and implement quality assurances framework

LESSONS FOR THE GAMBIA

- *Outcome 3.3: Increased Production of Basic Agricultural Commodities*
 - Promote SLM for increased production and productivity
 - Enhance livestock production, markets, and infrastructure
 - Adopt appropriate agricultural mech. and irrig.
 - Strengthen agricultural research and extension services support
 -

RECOMMENDATIONS

- Review literature on Ethiopia
- Organize exchange visits for Gambia government officials, farmers, donor agencies, and other stakeholders
